

Electric sprayer / AgriTools

ELECTRA 16 LI-ION

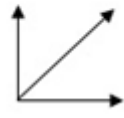

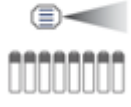

3110

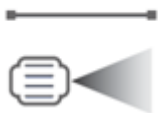

Electra 16 is a newcomer in the Di Martino product range: it is a safe and highly-efficient electric knapsack sprayer. It can be used when taking care of gardens, vegetable gardens, orchards and greenhouses. The sprayer is supplied with a 12V lithium battery, a micro-diaphragm pump (max. flow: 3lt min.) which makes it possible to reach 5 bar during use, an electronic pressure regulator and an indicator that makes it possible to check the battery charge status.

Recharge, with the appropriate charger supplied after each use and at least three times a year to be able to use it for a long time.
